Dean and/or Rebecca-

Our local elected officials are hosting a conference call on this issue. Our District Director, Ron Lee, will be on the call. Is it at all possible to have someone from the EPA on the call too? We would really appreciate it.

Thank you!

Carmen

Ken,

Please help us get an EPA Rep from Reg. 9 on this call at 3:00 PM (PT) to give an update. Our Coconino County Supervisor, Lena Fowler, has organized this meeting to inform residents of Page

and Lake Powell and she is asking for our help. Please let me know as soon as you have confirmation. Thanks.

Ron

Ron,

Could you assist me in getting a EPA representative to attend or call into this meeting this afternoon?

Thank you.

Lena

Good morning,

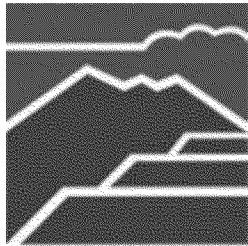

As most of you are already aware, a major hazardous materials incident occurred last Wednesday in Colorado resulting in a now estimated 3 million gallons of contaminated water from the Gold King Mine spilling into the Animus River. This contaminated water will eventually make its way to Lake Powell via the San Juan River.

Lena Fowler, Coconino County District 5 Supervisor, and Bill Diak, Mayor, City of Page will be conducting a conference call meeting **at 3pm this afternoon** to discuss the current situation and how it may affect Lake Powell area communities. This will also be a good opportunity to make any of your concerns known so that they may be addressed as new information comes in. Below is the conference call information.

Conference call phone number: Nonresponsive Conference Code

Conference call ID: Nonresponsive Conference Code

Thank you.
